

Automation Exercise

E-Commerce Web Application

Complete User Stories Document

Version 1.0 | 2025

Project Overview

Automation Exercise (automationexercise.com) is a full-featured e-commerce web application designed for QA automation practice. The platform simulates a real clothing store and provides test cases and APIs for automation engineers at all levels.

This document covers complete User Stories for all features of the platform, following the same structure and format used in professional agile development.

1. User Registration

Overview

The registration flow allows new users to create an account on the platform using their name and email address. The process is split into two steps: initial signup and account information form.

+ Prerequisites:

- The user has navigated to <http://automationexercise.com>
- The user clicks on the 'Signup / Login' button in the top navigation bar.
- The user has not previously registered with the same email address.

+ Acceptance Criteria:

- As a new user, I will open the website and attempt to register for the first time.
- The 'New User Signup!' section is visible on the login page.
- The following initial fields are displayed:

Field	Data Type	Mandatory	Validation	Notes
Name	String	Yes	Non-empty	Any name or alias accepted
Email Address	String / Email	Yes	Valid email format	Must not already exist in the system

- After clicking 'Signup', the system verifies that the email is not already registered.
- If the email already exists, an error is displayed: 'Email Address already exist!'
- If the email is new, the user is redirected to the 'Enter Account Information' form.
- The account information form includes the following fields:

Field	Data Type	Mandatory	Unique	Notes
Title	Single-select	Yes	No	Mr / Mrs / Miss
Name	String	Yes	No	Pre-filled from step 1
Email	String	Yes	Yes	Pre-filled from step 1. Read-only
Password	String	Yes	No	Minimum security requirements
Date of Birth	Date (DD/MM/YYYY)	Yes	No	Day, Month, Year dropdowns
Sign up for newsletter	Checkbox	No	No	Optional opt-in
Receive special offers	Checkbox	No	No	Optional opt-in from partners
First Name	String	Yes	No	Address section
Last Name	String	Yes	No	Address section
Company	String	No	No	Optional
Address	String	Yes	No	Address line 1
Address 2	String	No	No	Optional
Country	Single-select	Yes	No	Dropdown list
State	String	Yes	No	Free text
City	String	Yes	No	Free text
Zipcode	String	Yes	No	Postal code

Mobile Number	String / Tel	Yes	No	Phone number
---------------	--------------	-----	----	--------------

- All mandatory fields must be completed before the 'Create Account' button is clickable.
- Upon successful account creation, the user sees the 'ACCOUNT CREATED!' confirmation message.
- The user clicks 'Continue' and is redirected to the Home Page logged in as their username.
- The top navigation bar shows 'Logged in as [username]' to confirm the session.

+ Expected Results:

- A new user account is created in the system.
 - The user is redirected to the home page and is logged in.
 - 'Logged in as [username]' is visible in the navigation bar.
 - The registered email is flagged as existing — re-registration with same email is blocked.
-

2. User Login

2.1 Login with Correct Credentials

+ Prerequisites:

- The user has a registered account with a valid email and password.
- The user navigates to the 'Signup / Login' page.

+ Acceptance Criteria:

- The 'Login to your account' section is visible on the page.
- The login form contains two fields:
 - Email Address — validated for correct format in real time.
 - Password — masked input.
- Upon entering correct credentials and clicking 'Login', the system authenticates the user.
- The user is redirected to the Home Page.
- 'Logged in as [username]' is visible in the top navigation bar.

+ Expected Results:

- The user is successfully authenticated and redirected to the home page.
- Session is active and the username is shown in the navigation bar.

2.2 Login with Incorrect Credentials

+ Prerequisites:

- The user navigates to the Signup / Login page.

+ Acceptance Criteria:

- The user enters an incorrect email or password and clicks 'Login'.
- An inline error message is displayed: 'Your email or password is incorrect!'
- The user is NOT redirected and remains on the login page.
- The form data is not cleared.

+ Expected Results:

- Login is rejected with a clear, inline error message.
 - No session is created.
-

3. User Logout

+ Prerequisites:

- The user is logged in and on any page of the website.

+ Acceptance Criteria:

- The 'Logout' button is visible in the top navigation bar when the user is logged in.
- Upon clicking 'Logout', the user session is immediately terminated.
- The user is redirected to the Login page.
- The top navigation bar no longer shows 'Logged in as [username]'.
- The 'Login / Signup' option is restored in the navigation bar.

+ Expected Results:

- The session is invalidated and the user is redirected to the login page.
 - The user cannot access account features without logging in again.
-

4. Products

4.1 View All Products

+ Prerequisites:

- The user is on the home page (logged in or guest).

+ Acceptance Criteria:

- The user clicks on the 'Products' button in the top navigation bar.
- The user is navigated to the 'ALL PRODUCTS' page.
- A full list of available products is displayed in a grid layout.
- Each product card shows: product image, product name, price.
- An 'Add to cart' button appears on each product card on hover.
- A 'View Product' link is available on each product card.

+ Expected Results:

- The All Products page loads correctly with all products visible.
- Product images, names, and prices are displayed for each item.

4.2 View Product Detail Page

+ Prerequisites:

- The user is on the All Products page.

+ Acceptance Criteria:

- The user clicks 'View Product' on any product card.
- The user is navigated to the product detail page.
- The product detail page displays the following information:
 - Product Name
 - Category
 - Price
 - Availability (e.g., In Stock)
 - Condition (e.g., New)
 - Brand
 - Quantity input field (adjustable, default = 1)
 - 'Add to cart' button
 - 'Write Your Review' section
- The user can adjust the quantity before adding to cart.

+ Expected Results:

- All product details are correctly displayed on the detail page.
- The product can be added to the cart from the detail page.

4.3 Search Products

+ Prerequisites:

- The user is on the All Products page.

+ Acceptance Criteria:

- A search input field is visible on the All Products page.
- The user types a product name in the search field and clicks the search button.
- The page updates to show a 'SEARCHED PRODUCTS' section.
- Only products matching the search term are displayed.
- If no products match, no results are shown.

+ Expected Results:

- The search filters the product list correctly based on the entered keyword.

- Searched products remain in the cart if the user adds them and then logs in.

4.4 View Products by Category

+ Acceptance Criteria:

- A left sidebar is visible on the home and products pages with category filters.
- Main categories are displayed (e.g., Women, Men, Kids).
- Each main category is expandable to show sub-categories (e.g., Dress, Tops, Jeans).
- Clicking any sub-category navigates the user to the filtered category page.
- The page title confirms the selected category (e.g., 'WOMEN - DRESS PRODUCTS').
- The user can switch between different category/sub-category links from the same sidebar.

+ Expected Results:

- Category filtering works correctly across all main categories and sub-categories.
- Only products belonging to the selected category are displayed.

4.5 View Products by Brand

+ Prerequisites:

- The user is on the All Products page.

+ Acceptance Criteria:

- A 'Brands' list is visible on the left sidebar of the All Products page.
- Clicking any brand name navigates the user to that brand's product page.
- The brand page displays only products from the selected brand.
- The user can switch to another brand from the sidebar without going back.

+ Expected Results:

- Brand-specific product pages load correctly with filtered products.

4.6 Product Review

+ Prerequisites:

- The user is on a product detail page.

+ Acceptance Criteria:

- A 'Write Your Review' section is visible at the bottom of the product detail page.
- The review form includes: Name, Email, and Review text fields.
- All fields are required to submit the review.
- Upon clicking 'Submit', a success message is displayed: 'Thank you for your review.'

+ Expected Results:

- The review is submitted successfully and a confirmation message appears.
-

5. Shopping Cart

5.1 Add Products to Cart

+ Prerequisites:

- The user is on the All Products page or a product detail page.

+ Acceptance Criteria:

- The user can add a product to the cart by hovering over a product card and clicking 'Add to cart'.
- A modal/popup appears with two options: 'Continue Shopping' and 'View Cart'.
- Clicking 'Continue Shopping' closes the modal and keeps the user on the products page.
- Clicking 'View Cart' navigates the user to the cart page.
- From the product detail page, the user can set the quantity before adding to cart.
- Multiple products can be added to the cart.

+ Expected Results:

- Products are correctly added to the cart with the selected quantity.
- The cart reflects the correct product names, prices, quantities, and totals.

5.2 View Cart

+ Acceptance Criteria:

- The cart page is accessible by clicking 'Cart' in the navigation bar.
- The cart displays all added products with:
 - Product image and name
 - Unit price
 - Quantity
 - Total price per item
- A 'Proceed To Checkout' button is visible at the bottom of the cart.
- A subscription section is visible in the footer of the cart page.

5.3 Verify Product Quantity in Cart

+ Acceptance Criteria:

- When the user sets a specific quantity on the product detail page before adding to cart, the cart reflects that exact quantity.
- The total price is calculated correctly based on quantity * unit price.

5.4 Remove Product from Cart

+ Acceptance Criteria:

- Each product row in the cart has an 'X' (delete) button.
- Clicking the 'X' button removes that product from the cart immediately.
- The cart updates to reflect the removal without a page reload.
- If the cart is empty after removal, the empty cart state is shown.

+ Expected Results:

- The product is successfully removed from the cart.
 - Cart totals are updated accordingly.
-

6. Checkout & Order Placement

6.1 Place Order — Register During Checkout

+ Prerequisites:

- The user is a guest (not logged in) and has added products to the cart.

+ Acceptance Criteria:

1. User adds products to the cart and navigates to the Cart page.
2. User clicks 'Proceed To Checkout'.
3. A prompt appears to Register or Login. User clicks 'Register / Login'.
4. User completes the registration form and creates an account.
5. 'ACCOUNT CREATED!' confirmation is shown. User clicks 'Continue'.
6. 'Logged in as [username]' is confirmed in the navigation bar.
7. User navigates back to the Cart and clicks 'Proceed To Checkout'.
8. The Checkout page shows:
 - Delivery Address (from registration)
 - Billing Address (from registration)
 - Order review with all cart items
9. User enters a comment/description in the text area and clicks 'Place Order'.
10. Payment details form appears with: Name on Card, Card Number, CVC, Expiration Date.
11. User clicks 'Pay and Confirm Order'.
12. Success message is shown: 'Your order has been placed successfully!'

+ Expected Results:

- The order is placed successfully after registration.
- The delivery and billing address match the registration data.

6.2 Place Order — Register Before Checkout

+ Prerequisites:

- The user registers first, then adds products and proceeds to checkout.

+ Acceptance Criteria:

- Same as 6.1 steps 8–12 (address verification, payment, order confirmation).
- The checkout process is smoother as the user is already logged in.

6.3 Place Order — Login Before Checkout

+ Prerequisites:

- The user has an existing account and logs in before shopping.

+ Acceptance Criteria:

- User logs in from the Signup/Login page.
- User adds products to cart and proceeds to checkout.
- Address and billing details are pre-filled from the user's registered account.
- User enters payment details and places the order.
- Success message is shown: 'Your order has been placed successfully!'

6.4 Verify Address Details at Checkout

+ Acceptance Criteria:

- The Delivery Address shown at checkout exactly matches the address entered during registration.
- The Billing Address shown at checkout exactly matches the address entered during registration.

6.5 Download Invoice After Purchase

+ Acceptance Criteria:

- After a successful order, the confirmation page shows a 'Download Invoice' button.
- Clicking 'Download Invoice' triggers a file download to the user's device.
- The invoice file is successfully downloaded.
- The user can click 'Continue' after downloading to go back to the home page.

+ Expected Results:

- Invoice is downloaded successfully after order placement.
-

7. Contact Us

+ Prerequisites:

- The user is on any page of the website.

+ Acceptance Criteria:

- The user clicks 'Contact Us' in the navigation bar.
- The Contact Us page is displayed with 'GET IN TOUCH' heading.
- The contact form contains the following fields:

Field	Type	Mandatory	Notes
Name	String	Yes	Full name of the user
Email	String / Email	Yes	Valid email format
Subject	String	Yes	Topic of the message
Message	Free Text	Yes	Detailed message body
Upload File	File Upload	No	Optional attachment

- All mandatory fields must be filled before submission.
- The user can optionally upload a file attachment.
- Upon clicking 'Submit', a browser confirmation dialog appears.
- The user clicks 'OK' to confirm submission.
- A success message is displayed: 'Success! Your details have been submitted successfully.'
- A 'Home' button/link is available on the success page to navigate back to the home page.

+ Expected Results:

- The contact form is submitted successfully.
 - The success message confirms the submission.
 - The user can navigate back to the home page.
-

8. Newsletter Subscription

+ Prerequisites:

- The user is on the Home Page or the Cart page.

+ Acceptance Criteria:

- Scrolling to the footer reveals a 'SUBSCRIPTION' section.
- The section contains a text input field for the user's email address.
- The user enters their email and clicks the arrow/submit button.
- A success message is displayed: 'You have been successfully subscribed!'
- The subscription feature works from both the Home Page footer and the Cart page footer.

+ Expected Results:

- The user is successfully subscribed with the entered email address.
 - The success confirmation is shown immediately after submission.
-

9. Home Page

+ Acceptance Criteria:

- Upon navigating to the website, the Home Page loads successfully.
- The following elements are visible on the Home Page:
 - Top navigation bar with links: Home, Products, Cart, Signup/Login, Test Cases, API Testing, Video Tutorials, Contact Us
 - A promotional banner/slider at the top of the page
 - Featured/new products section
 - 'RECOMMENDED ITEMS' section at the bottom of the page
 - Footer section with SUBSCRIPTION area and copyright information
 - A scroll-to-top arrow button at the bottom right
- The 'Recommended Items' section displays suggested products. The user can add any recommended item to the cart.
- The user can scroll down to the footer and subscribe via the newsletter form.
- Clicking the up-arrow button at the bottom-right scrolls the page back to the top.
- The page title text 'Full-Fledged practice website for Automation Engineers' is visible at the top when scrolled up.

+ Expected Results:

- The Home Page loads with all sections correctly rendered.
 - Navigation links are functional.
 - Recommended items can be added to cart.
-

10. Page Scroll Functionality

10.1 Scroll Up Using Arrow Button

+ Acceptance Criteria:

- The user scrolls down to the bottom of the Home Page.
- The 'SUBSCRIPTION' section in the footer is visible.
- A scroll-up arrow button is visible at the bottom right corner of the screen.
- Clicking the arrow button scrolls the page back to the top smoothly.
- The header text 'Full-Fledged practice website for Automation Engineers' is visible after scrolling up.

10.2 Scroll Up Manually (Without Arrow Button)

+ Acceptance Criteria:

- The user scrolls down to the bottom of the Home Page.
- The 'SUBSCRIPTION' section in the footer is visible.
- The user manually scrolls up using the keyboard or mouse/trackpad.
- The page scrolls up and the header text is visible at the top.

+ Expected Results:

- Both scroll-up methods (arrow button and manual scroll) work correctly.
-

11. Account Deletion

+ Prerequisites:

- The user is logged in and on the Home Page.

+ Acceptance Criteria:

- A 'Delete Account' button/link is accessible from the navigation bar or account settings.
- Clicking 'Delete Account' immediately deletes the user's account from the system.
- The confirmation message 'ACCOUNT DELETED!' is displayed.
- The user clicks 'Continue' and is redirected to the Home Page as a guest.
- The deleted account's email can be used to register a new account.

+ Expected Results:

- The account is permanently deleted from the system.
 - The user is logged out and returned to the home page as a guest.
 - All account data is removed.
-

12. Search, Cart Persistence, and Login

+ Prerequisites:

- The user is on the All Products page (not logged in).

+ Acceptance Criteria:

- The user searches for a product and sees the search results.
- The user adds one or more searched products to the cart.
- The user navigates to the Cart page and verifies the products are present.
- The user logs in using the 'Signup / Login' option.
- After logging in, the user navigates back to the Cart page.
- The previously added products are still present in the cart.

+ Expected Results:

- Cart contents persist across the login action within the same session.
 - Products added before login remain in the cart after login.
-
